

Things you can do with an Amateur Radio?

- Talk around the world
- Talk around town
- QRP - Communicating with very low power
- Amateur Television & Slow Scan TV
- Team Contest
- Emergency and Volunteer services
- Satellite Communications
- "Ham Grams" - Handling communication traffic and messages
- Skywarn weather spotting
- And much more!!!

You could be an Amateur Radio operator!

Amateur radio operators come from all walks of life -- movie stars, missionaries, doctors, students, politicians, truck drivers, astronauts, and just plain folks. They are all ages, sexes, income levels and nationalities. But whether they prefer Morse Code on an old brass telegraph key through a low power transmitter, voice communication on a hand-held radio or computer messages transmitted through satellites, they all have an interest in what's happening in the world, and they use radio to reach out.
